GREAT STRIKE NOW ON

Amalgamated Employees Tie Up the Tin Plate, Sheet and Hoop Mills.

THE MEN DEMAND RECOGNITION.

Insist Upon Unionizing all Plants of the Companies in Question—Mills Affected and Speculation as to Outcome.

Pittsburg, July 15.—The strike of the Amalgamated association employees in the tin plate, sheet and hoop mills, which was ordered Saturday night as a result of a disagreement between the conferees of the United States Steel corporation and the Amalgamated association, was generally observed in the Pittsburg district. At the mills where the strike order extended, the skilled workmen who are under the control of the union failed to put in an appearance, or if they did go to the mills, it was merely as spectators and with no intention of working. The strike order is being observed at all of the tin plate, sheet and hoop combines.

President Shaffer is in communication with lodge officials at these plants and he is confident that the association will make such a strong showing on this preliminary suspension of work that a general strike of the mills of the United States Steel corporation will not be necessary. This latter proposition is the strong card which the Amalgamated president has up his sleeve, and while he has threatened to play it if an early adjustment of the difficulty is not made.

This strike bears a resemblance to the historical Homestead strike in 1892, in that it is not a question of wages, but of recognition of the Amalgamated association. The association insists upon unionizing all the plants of the three companies in question. The manufacturers refuse to grant this demand, and say that the individual contracts with workmen which are in force at a number of the plants must stand.

The Painter mills of the American Steel company of the South Side are shut down. The men have joined the Amalgamated association and not one of the workmen save four or five Hungarians and six boys showed up.

The tin mill at Monessen, Pa., which is non-union, is running as usual. Lindsay and McCutcheon plant of the American Steel Hoop company in Allegheny is idle and the Star and Monongahela plants of the American Tin Plate company are closed down.

The Painter and Lindsay and McCutcheon plants have been looked upon by the officials of the United States Steel corporation as the strongholds of non-unionists in the Hoop company.

The prompt action of President Shaffer in thus early forcing the fight and carrying it into the enemy's camp was looked upon as evidence that the strike will be one of the most spirited of Pittsburg's history. President Shaffer was pleased with the reports from the two strongholds and he declared that not a wheel would turn in either the Painter or Lindsay and McCutcheon works until the strike was settled.

At the headquarters of the Amalgamated association it was said that the situation was satisfactory. President Shaffer took personal charge of the strike campaign. The executive committee of the Amalgamated association has placed the fight entirely in his hands, and he has been directed to plan his campaign as he thinks best. Secretary John Williams said: "Every tin plate mill in the country is closed down."

Every steel hoop plant in Pittsburg excepting the William Clark & Sons company is idle, and all the sheet mills have closed down. Only one tin plate mill in this district is in operation. The LaBelle tin plate mill at Martin's Ferry, O., Loughlin tin plate works and the Aetna-Standard plant at Bridgeport, O., Cambridge, O., plant and Greenville, Pa., works are all shut down. The Aetna-Standard company employs 3,000 men and the Cambridge company 800 men and they are all out. At Newcastle, Pa., 1,200 Amalgamated tin workers are idle, and when the stocks now on hand are used up, the other employes will have to quit, and 3,000 will be idle. There are practically no new developments in the strike situation at the Wellsville, O., plant. All the men employed in the mill except 15 have joined the Amalgamated association.

Not a Wheel Turning.
Youngstown, O., July 15.—Not a wheel was turned in any of the plants of the American Steel Hoop company or the American Sheet Steel company in the Mahoning valley. The sixth district is the strongest numerically, in the Amalgamated association, and the men are a unit in observing the strike order issued by President Shaf-

fer. The Steel Hoop company has five plants in Youngstown, Girard, Warren and Greenville and the Sheet Steel combine has four in Struthers and Niles. All are organized. Vice President Ward Sunday organized the men in the new four mill plant of the Niles Iron and Sheet company. In this valley 7,500 men are directly or indirectly affected by the strike.

Molders Go Out.
Chicago, July 15.—Nearly 1,000 iron molders employed in Chicago went out on strike in consequence of the failure of the employers to grant their demand for a flat scale of three dollars per day. About 50 firms are affected and it is expected that the number of strikers will be increased materially within the next few days.

VOLCANO LET GO.
Hundreds Overwhelmed by Lava on the Island of Java.
Tacoma, Wash., July 15.—Orental advices gives details of a terrible destruction of human life which occurred in northern Java by a sudden and terrific outburst of the volcano Kleet. For 50 miles around all the coffee plantations and other estates were destroyed by showers of ashes and stones, together with great streams of lava and hot mud. Seven hundred natives and a number of Europeans perished. The lava also consumed the superintendent of the estate and about 25 coolies. Many coffee estates in the neighborhood were destroyed. The country around was strewn with corpses.

New Party Movement.
Cleveland, July 15.—On July 31 Ohio Democrats who believe in Bryan and the issues which he represents, which the recent Democratic convention ignored, will assemble in Columbus and make up a state ticket. Ten men met here and decided that a bolt should be made and that a new party should enter the field of Democratic politics. A formal statement of principles was submitted to the convention and was adopted. This will be printed and sent throughout the state to those who are known to be faithful to the Nebraskan. A convention was decided upon to be held at the Great Southern hotel on the last day of July.

Nash at Buffalo.

Buffalo, July 15.—Governor George K. Nash of Ohio, has arrived here on the U. S. S. Hawk, and escorted by the United States steamers Michigan and Yantic. Aboard the Yantic are the naval reserves of Detroit and Saginaw. The Hawk carries the naval reserves to Cleveland. In the complement of the fleet are about 100 regulars, 150 Michigan naval reserves and 5 Ohio reserves. Governor Nash will remain on board the Hawk during his stay in Buffalo.

Move For Settlement.
Pittsburg, July 15.—A report is current in iron and steel circles that steps are to be taken at once by the manufacturers toward a settlement of the strike. It is reported that J. H. Nutt, secretary of the labor bureau of the Republic Steel and Iron company, and J. H. Reis, of the Bayview plant of the Illinois Steel company, are to call the manufacturers and workers together to consider a plan of mediation.

Ellis Glenn Trial.
Parkersburg, W. Va., July 15.—The evidence in the Ellis Glenn case showed that the prisoner passed as H. T. Terry, the mysterious third party in the case, while she was in Paducah, Ky. It also showed that she drank whisky and gambled. The crowd in the court room is larger than ever. The attorneys are still examining witnesses for the state.

Hanna and the President.
Canton, O., July 15.—Senator Hanna spent the afternoon with President McKinley. It is said there is no significance in his visit, that he had not seen the president for a long time and that he came here to pay his respects and to talk over some personal matters. There were a number of callers, but none of them on matters of public concern.

Deputy Ambushed.
Middlesboro, Ky., July 15.—Deputy Sheriff Joe Manning was assassinated about a mile from this place. He is believed to have been shot by Hermann McCreary, for whom he had a warrant to arrest. McCreary is being pursued now by a posse.

Ohio-Kentucky Road Completed.
Lexington, July 15.—The last rail on the Ohio & Kentucky railroad from Jackson, in Breathitt county, to Caney, in the coal field of Morgan county, has been laid. The road will be opened for traffic Aug. 1.

At Cleveland.
Cleveland, July 15.—Between 400 and 500 men employed at the Crescent Tin Plate mills in this city, obeyed the strike order of President Shaffer and as a result the plant is practically idle. The Crescent is the only plant affected in Cleveland by the strike order. It is controlled by the American Tin Plate company.

Effect on Fruits and Vegetables.

St. Joseph, Mo., July 15.—The long continued drought has resulted in the

SLUMP IN AMERICANS.

A Feature of the London Market That Causes Much Anxiety.

NO LIKELIHOOD OF A PANIC, HOWEVER

Depression Due to Reports of Drought, Bad Crops and Steel Strike.
Views of Rothschild and Morgan.

London, July 15.—The stock exchange was engaged with the preliminaries on the settlement. There were marked and heavy declines in prices and large movements in the money market. A feeling of anxiety prevailed, especially in the market for Americans. The rumor that bankers would not lend on American securities is gross exaggeration. Lenders, however, are wary all around, where long periods of time are asked for.

The depression in United States Steel is chiefly due to the report that London bankers refused to loan money on stock of that corporation. The bankers have not taken any organized action. In few cases, advances were refused on steel, but this was owing to the fear of solvency of the applicants than to the value of the stock, though all around difficulty has been experienced in getting the usual advances on this security.

In this connection J. P. Morgan, Jr., said: "We have had no notification that the banks were making difficulties. The only reason which can explain the decline in steel is that there is more sellers than buyers. I do not believe the strike to be serious, only a few mills are concerned and the effect cannot possibly be judged for a few days."

Lord Rothschild said: "There is no discrimination against United States Steel corporation or American stock. It is simply a business matter here that bankers here don't advance large amounts on one class of stock alone. If one came to me and asked for £50,000 on one lot of stocks I would not give it to him. I should request different lots of securities. The financial situation here, not excluding consols, depends entirely upon the United States. The financial situation in Germany is all right; everything, as I have stated, depends upon the United States. J. P. Morgan placed 15,000,000 of steel here. They have gone down considerably and it cannot be called surprising. If the London market is despondent, but there is no real anxiety, nor likelihood of any panic or things of that sort. I expect the situation in the United States—the drought, bad crops and the possible results of the strike to be exaggerated. Settle your strike and arrange your railroad difficulties and you will find London as willing as ever to support American securities."

To Prevent Lynching.

Richmond, Va., July 15.—The constitutional convention in Virginia was in session 21 minutes. The most important resolution introduced was that offered by Mr. Pedigo (Rep.) of Henry county, which aims to prevent lynching. It provides that the government shall offer reward of \$500 for the arrest and conviction of every person who shall engage in the offense; that the crime shall be murder in the first degree where the hanging or lynching is accomplished, and that it shall be the duty of the governor to pay \$1,000 to the heirs of any person lynched. The money to come out of the state treasury and be chargeable to the county or city in which the crime was committed.

Crops In Ohio.

Columbus, O., July 15.—J. W. Fleming, assistant secretary of the state board of agriculture, states that the extreme heat of the last few days has not injured the crops in Ohio in any degree. Under the influence of the beneficial weather corn has shot up fast, and bids fair to be a good average crop, so far as the acreage production is concerned. It will be about 5 per cent short of an average acreage in the state. Wheat and other crops will be up to the average in point of production, although the wheat is short in acreage.

End of an Ohio Heiress.

New York, July 15.—Mable Strong of Cleveland, who came to this city with Charles Wildrick, who was arrested for fraud and sent to the penitentiary for six months, died from consumption in St. Luke's hospital. Miss Strong was the daughter of a wealthy Cleveland man. She lived with Wildrick at a hotel until he was arrested for defrauding the proprietor in the payment of his bill. Her father came to this city and tried to get her to go home with him, but she refused and was taken to St. Luke's hospital.

Effect on Fruits and Vegetables.

St. Joseph, Mo., July 15.—The long continued drought has resulted in the

entire ruin of the corn and oats crops in this section of the country. The fruit and vegetable crops are also complete failures and the pastures have dried up so that the farmers are paying enormous prices for hay and feed. Unless rain comes this week wheat, which was an abundant crop, will have to be substituted for even the coarser and cheaper kinds of feed.

PRESIDENT SHAFFER
Discusses the Amalgamated Strike Situation—All Men Out.

Pittsburg, July 15.—"All of our men are out, and the condition for which we have been preparing these three years and more and against which we repeatedly warned the manufacturers now confronts the latter," said President T. J. Shaffer. "The gratifying unanimity with which our men assented to the strike order is a vigorous and sufficient refutation of the statements of interested persons on the other side of this controversy that the strike is one of the officials of the Amalgamated association and not of the men. All our men are out and the works of the three underlying companies of the United States Steel corporation are tied up as tight as an estate in English chancery court, and so they will remain until the companies concede the just demands of our men."

Secretary-Treasurer John Williams of the Amalgamated association, says the action of the men all over the country could not have been more general.

Cincinnati Strike Broken.

Cincinnati, July 15.—The machinists' strike was practically ended by the return of more than 2,000 workmen to their various shops. The strike managers had announced their intention of concentrating their attack upon certain plants while permitting men to work at other places for the purpose of obtaining funds. One of the plants designated to be fought against, was that of Fay-Egan company. Today over 600 of the Fay-Egan employees formed in line and marched in a body to their work, thus destroying the strongest hope of the strike leaders. The manufacturers feel assured that nothing can restrain the remaining strikers from returning to work.

Reading Strike.

Reading, Pa., July 15.—Vice President Voorhees' letter was received by the striking shop hands with declarations of determination to stay out and endeavor to spread the strike. They say they went out for an increase and that they will stay out until they definitely know what they are going to get. Not one man went back. It is expected that the 1,000 machinists in the locomotive works will be ordered by the company on shorter working days at once as the strikers have tied up the boiler making and blacksmithing departments of that plant. Labor leaders insist that the strike will extend to the trainmen of the entire Reading system.

Men Stayed Away.

Niles, O., July 15.—As a result of the strike order issued by the Amalgamated association, the 800 men employed by the American Tin Plate company here did not report for work. The plant of the American Sheet Steel company here has been closed since July 1, but preparations have been underway for an early resumption of work. Now, however, the men, it is said, will not return until the strike is settled. About 1,000 men are employed at the plant.

Five Hundred Idle.

Elwood, Ind., July 15.—Five hundred men are idle on account of the strike ordered by President Shaffer. They are the men of the tin plate factory. Everything is quiet and the men are awaiting developments. Secretary-Treasurer Lawyer of the T. P. W. I. P. A., said that the strike would not affect their men for 15 days, at which they would be out of material. The tin plate workers will not strike unless the company should attempt to scale the mill.

Order Obeyed.

Anderson, Ind., July 15.—The strike in the tin plate mills was inaugurated here. All members of the Amalgamated association obeyed the strike orders and the mills are closed. Five hundred men are idle here. The mills at Middletown, Ind., are shut down by the strike. At Elwood, the strike order in the mills of the American Tin Plate company were obeyed without question. This is the first day this year the mills have been idle.

Pomeroy, O., July 15.—The effect of the iron and steel workers' strike has reached this city, throwing 300 men out of employment at the Pomeroy works of the American Steel Hoop company. The mill did not start its fires.

Shut Down.

Piqua, O., July 15.—Owing to the strike order, the Piqua plant is still shut down. The manager is out of town and there is no one here authorized to make a statement.

FREE FROM ALL DEBT.

Present Financial Condition of the Island of Porto Rico.

AUTHOR OF HOLLANDER BILL TALKS.

Free Trade with the United States a Consumption to be Wished.
Taxation and Annual Expenditures.

New York, July 15.—Among the passengers who arrived from San Juan, Porto Rico, was Mr. Jacob Hollander, treasurer of the island of Porto Rico. Mr. Hollander, who holds the chair of assistant professor of finance at Johns Hopkins university, was sent to Porto Rico by the president to formulate a revenue system. Mr. Hollander gave out the following statement concerning his work in Porto Rico:

"The present financial condition of Porto Rico compares favorably, I think, with that of any state or territory in the Union. The island is free from all funded or floating indebtedness; the burden of taxation upon its people is less than upon the residents of any part of the United States, and the insular treasury begins a new fiscal with sources of revenue that should supply all necessary expenditures and with a surplus large enough to afford security against any unforeseen contingency. These are the conditions which made it possible for Governor Allen to convene the insular legislature in extra session on July 4 and for that body to pass the joint resolution as to the adequacy of its present revenue system, which it is hoped, will soon result in free trade with the United States.

"The annual expenditures of the island are about two million dollars, of which about one-half is devoted to schools and roads. Necessary revenues are supplied by custom duties on goods imported into Porto Rico from countries other than the United States; by excise taxes on alcohol, tobacco and a few minor articles; and by a direct tax of one-half per cent upon real and personal property.

"The actual operation of the new revenue system of the island has been as satisfactory as its results. In the beginning unfamiliarity with the law and the spirit in which it was administered excited some alarm that political malcontents exploited to the utmost. But as feature after feature of the system has been put into operation, the intelligent sentiment of the island has accepted it cordially, and at the present time the only criticism proceeds from those who are opposed not to any but all taxation, are immovably attached to the old Spanish system of heavy indirect taxes upon necessary consumption and inadequate taxation or entire escape of property and capital."

Believes Reports Exaggerated.

Washington, July 15.—Secretary of Agriculture Wilson hopes that the corn crop of the western states has not been ruined by the drought. He is disposed to believe that the reports as to the damage have been exaggerated. He is quoted as follows: "I do not regard the corn crop as seriously damaged, notwithstanding the reports from the western states. On July 1, the condition of the corn crop was more promising than on the same date last year, and even if the reports are not exaggerated, although I am inclined to think they overstate the real conditions, there is not as yet cause for general alarm."

Boer Force Surprised.

London, July 15.—"General Broadcast," says a dispatch from Bloemfontein, "surprised Boer, due east of Lindley at dawn last Thursday (July 11). He took 39 prisoners, including General A. P. Cloete and General Wessels, Commandant Dwaal, First Cornet Piet Steyn (President Steyn's brother), Thomas Braan, secretary of government, and Roche de Villiers, secretary to the council. Steyn himself fled without coat or boots. General Dewet is believed to have been present."

Needs More Mounts.

London, July 15.—Lord Kitchener has advised the government that it is possible to withdraw a large number of infantry from South Africa, amounting virtually to the greater part of the unmounted army. At the same time he requests that he be supplied with more mounted men. The government is considering this, and will probably be guided by Lord Kitchener's advice.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

TUESDAY, JULY 16, 1901

The latest from Carrie Nation is that she is proving a great attraction at Western fairs. The country fair is a good place to study the temperance problem.

FEDERAL State Auditor Sam H. Stone wants to succeed Charley Sapp as Collector of Internal Revenue at Louisville. The fight between the "outs" and the "ins" in the Republican ranks is like the weather—very hot. With the average Kentucky Republican politician it is one long struggle for "pie."

The statement of the imports and exports of the United States for the fiscal year which ended June 30 shows that the total imports of the year were \$822,756,533, total exports \$1,487,056,544, and the excess of exports over imports \$664,900,011. The imports are \$27,184,651 below those of last year and the exports are \$83,173,402 above those of last year. An excellent showing for your Uncle Samuel. And by the way, what would the "home market" crowd do without the foreign trade?

MAYSVILLE IN THE MIDDLE OF THE LAST CENTURY.

We have before us two copies of the Maysville Post Boy, dated, respectively, March 27th and March 29th, 1851—just fifty years ago. It was edited by Wm. P. Conwell, in his prime one of the ablest members of the Mason County bar, and Chas. D. Kirk, a journalist of great capacity and promise. There is but little from the pen of either editor in these two papers, the editorial columns being given up to a raging theological controversy, which drives the modern reader to the advertising columns for entertainment and relief. The advertisement of Dr. Roback, an all-round fakir from Sweden, shows that this community had as soft a side for miracle workers then as it has now. He describes himself as a professor of astrology, geomancy and conjuration and offers his services to such as desire success in courtship, redemption from the whisky habit and infallible tips in games of chance. He will also calculate nativities, warranted in any climate, at low rates and by the strict principles of the geomantic art. One may apply in person or by letter. All letters will be religiously attended to, if prepaid. He has been consulted by all the crowned heads of Europe. In another column, Mr. John R. Thompson, of Richmond, Va., makes an appeal in behalf of the "Southern Literary Messenger," the only literary monthly in the Southern States. It will continue to present articles of a scientific character, and, by special arrangement for Parisian correspondence, will faithfully reflect the progress of art and science in the capital of France. Post & Co., Periodical Agency, advertise the "London Art Journal" and all the foreign reviews—Blackwood, Westminster, Edinburgh, etc., with such medical publications as the London Lancet and the British Medico-Chirurgical Review. The market quotations are suggestive: Bourbon whisky, 35c. to \$1.25 per gallon; hemp, \$4 to \$4.50; wheat, 60c. to 62c.; flour, \$3.00 to \$4. George Cox & Son announce a most seductive importation of spring goods—rich style chenille, brocade and black silks; French organdies and lawns; rich-printed bangles, tissues and grenadines. The Maysville Seminary—embracing two departments—male and female—(Rand and Richeson principals), advertise a thorough course of instruction in all the branches of a liberal education, and among other, "important and instructive exercises—weekly essays and extemporaneous compositions in each department, and weekly debates by the male pupils of the institution." "The site of the seminary"—it is interesting to remark—"has peculiar advantages,—near the center of the city, yet retired from its bustle,—an elevated and healthful situation commanding a view of uncommon variety and beauty."

Mr. Charles Quin, professor of penmanship, (to be seen at the Lee House), publishes a handsome testimonial from Henry Clay, dated Ashland, June 9th, 1850. H. H. Cox in his budget of new publications advertises "The Black Tulip," by Alexander Dumas, and "Alice, or The Mysteries," by the author of "Ernest Maltravers." John P. Dobyns has recently erected a "strictly fire-proof" warehouse with capacity to bale twenty tons of hemp per day and store at one time 1,000 tons. James Wormald advertises mole skin, beaver and otter hats, and will pay cash for any quantity of coon, mink, fox, wild cat and other furs. Farrel's Celebrated Arabian Liniment, ("used ages ago by the sons of the desert") is declared to be an infallible remedy—even in cases of incurable disease. Moore & Little, fashionable undertakers, advertise the superior attractions of their new hearse. If you don't patronize M. & L. you are "not in it."

Messrs. Granl Wilson, Grimes and Bain went fishing one day recently and almost totally depopulated North Fork of its fair, frolicsome finny denizens. They returned in the evening in the surrey, cracking jokes and singing "Old Kentucky Home," with variations.

John Cooper, a machinist in the employ of the Richmond Milling Company, Richmond, Indiana, has arrived with his wife from their home in Nepton, Kentucky, and are boarding at Chas. Kenon's. He is busily engaged putting the machinery of the new flour mill together, assisted by L. M. Collins, Hawk Corryell, Oscar Mayhugh, James Roe, Will Kennan and Marua Collins. With such an array of local talent, led by a trained millwright, it is confidently expected to have the mill in complete running order by the 21st of this month.

Charles Calvert, who has not been in good health for some time, was overcome while feeding a thresher Wednesday evening, and only a prompt summons and quick response from Dr. Bain prevented a serious result. He is now out of danger.

Riley Bramel, being duly interrogated as to his crop prospect, solemnly affirms that he is tending thirty-nine acres of tobacco, and is fattening twenty hogs on the worms gathered from his crop. Riley is a joker from way back—on the Mt. Carmel pike, but is a good sociable fellow whom all the boys like.

The best way to be up-to-date, is to put your name on the BULLETIN slate. It's only one dollar and a half per year,

And it will please you, never fear.

And while on this line I'm hinting, it's a good place to get job printing.

This place is in the foot-hills of the Cumberland Mountains, a few miles away I can see their shaggy heads upreared, clothed in misty shadows blue as indigo, old Sugar Loaf, the loftiest of all. I realize daily as I watch their serrated shapes the poetic lines:

"Tis distance lends enchantment to the view, And clothes the mountains in their azure hue."

Orangeburg is sheltered by hills whose sides

are laughing with a bountiful crop of corn and tobacco. Hog and hominy is the staple food,

varied by sweet potatoes and juicy roasting ears.

The hog portion of the menu wanders, like the wind, wherever it lists.

BOY

There's no sense buying cheap stockings. There's no economy in lack of quality. We could sell poor stockings at half the price of good ones and make money—but lose friends.

We study hosiery. Select only from the best lines after careful TESTS from many stocks.

The best stockings for boys and girls. Exactly. The best. You know we're conservative—we wouldn't recommend a stocking this way if we weren't sure. We're very sure.

The Hercules, 25c, a pair, can't be matched.

WOMAN!

There is nothing you can want in Hosiery we can't supply. The very newest, most exquisite novelties in fancy hosiery, the finest, softest, plain hosiery.

Do you know we have the best lisle thread stocking in town—or out—for 25c?

Plain or drop stitch, double sole and heel, perfectly shaped, elastic, fast black.

4. Absolutely safe and guaranteed.

Why

THE BEE HIVE

We Are Fishing

For your patronage, and we hope to catch it. Our tackle is very complete—up-to-date in every respect—as follows:

POLES.

Our poles are prompt delivery and courteous and attentive salesladies and salesmen in every department; that is a pretty good kind of a pole, is it not?

Our lines are Dry Goods, Ladies' Furnishings, Men's Furnishings, Cloaks, Skirts, Millinery, Ladies' specialties of all kinds, Carpets, Rugs, Mattings, Oilcloths, Lace Curtains, Window Shades, Notions, etc., and each department complete.

HOOKS

Our hooks are of the kind that hold customers once we catch them. They are simply the best goods we can buy. They are the same in all departments.

BAIT--

We use the most approved sort of bait prices. They are what count and enable us to catch so many patrons. Every one likes to buy good goods at low prices, and this is the place to do it.

Let Us Try Our Tackle On YOU;

IT WILL PAY YOU

If a rise should materialize at headwaters between now and Thursday the Keystone State will pass up Thursday night.

Enquirer: "The Keystone State has carried the biggest passenger trip of any boat in the line this season. Steward Berridge says he has fed over 230 passengers at one meal, it taking four rounds at the tables to feed them all. There have

been so many passengers on the Key-

stone at one time that there was not enough chairs on the boat for them to sit down on. The cook and cabin crews are all nearly worn out by the hot weather and extra hard work, but it now looks like the low-water season was close at hand and all will get a good rest of several weeks."
